

## **ENVIRONMENTAL POLICY STATEMENT**

---

**Hevey Civil Engineering provides all types and ranges of Civil Engineering and Building services to construction companies, local authorities, semi-states and private client. It specialises in drainage operations, road construction, culvert construction, Utilities, (Service ducting, Junction Boxes, cable laying), Watermains, Finishes (Concrete and Paving) and Small to Medium scale Earthworks.**

Hevey Civil Engineering is committed to leading the industry in minimising the impact of its activities on the environment. We will manage our operations so as to minimise environmental impacts in such areas as waste, energy use and emissions.

The key points of its strategy to achieve this are:

- Minimise waste by evaluating operations and ensuring they are as efficient as possible.
- Minimise toxic emissions through the selection and use of its fleet and the source of its power requirement.
- Actively promote recycling both internally and amongst its customers and suppliers.
- Source and promote a product range to minimise the environmental impact of both production and distribution.
- Meet or exceed all the environmental legislation that relates to the Company.
- Use an accredited program to offset the greenhouse gas emissions generated by our activities.

**Frank Hevey is the Environmental Manager and has ultimate responsibility for formulating and implementing this Environmental policy.**
